

Where Do UNE Public Health Alumni Work?

Every year, the University of New England's School of Community and Population Health surveys the Master of Public Health (MPH) graduates. Results from 2009 through 2014 indicate that 85% of the alumni surveyed are employed in the fields of health care, non-profit, government, and university/research. They hold a wide variety of different positions and work for a diverse selection of employers.
